**ALPHA PAC Endorses Kamala Harris' Candidacy To Become Democratic Nominee
for President of the United States**

*ALPHA PAC Urges Americans to Support Harris Candidacy with Fierce Urgency, Commits To Mobilize
Black Men To The Polls In Battleground States*

July 22, 2024

WASHINGTON, D.C. – The Alpha Political Action Committee (ALPHA PAC) today endorsed Vice President Kamala Harris' candidacy to become the Democratic Nominee for President of the United States.

“At this critical moment in our nation’s history we must all work with a fierce urgency to elect Vice President Kamala Harris to the presidency. She has demonstrated throughout her public service career a commitment to delivering justice for all, protecting our freedoms, and paving the way for economic opportunity for all Americans,” said **ALPHA PAC Chairman Dr. Everett B. Ward**. “This November the choice is clear between a proven leader in Vice President Harris and a twice-impeached, convicted felon, culture war flame thrower, and pathological liar who has been found liable for sexual assault and massive fraud. Let me be clear, Black men must contribute, organize, vote, and bring other Black men to the polls with them to elect Vice President Kamala Harris as the next President of the United States.

Since its inception, ALPHA PAC has remained committed to a legacy of political and civic engagement. Through its national network of members, partners, and affiliates, ALPHA PAC, a Black-men led organization is committed to mobilizing Black men to the polls in battleground states in support of Harris' candidacy. ALPHA PAC routinely mobilizes communities for civic engagement, runs get-out-the-vote operations for endorsed candidates, directs financial support, and builds momentum to impact legislation in Washington.

Vice President Harris' leadership in the Biden administration has included a focus on delivering historic and unprecedented access to capital designed to be accessible for Black-owned businesses, delivered more funding to Historically Black Colleges and Universities than any administration in history, implemented historic student loan forgiveness and payment restructuring, pushed to ensure our voting rights and pass criminal justice reform, remained focused on Black maternal mortality and advocating for women's freedom to access reproductive care. Working with President Joe Biden, Harris helped deliver a child tax credit that cut Black child poverty in half, steadied our economy following COVID, and created millions of jobs investing in all of America with the Bipartisan Infrastructure Law and American Recovery Act. On the

global stage, she's met with dozens of world leaders at critical moments of international importance and established herself as a trusted source of leadership.

Vice President Harris has demonstrated she is ready to lead our country. She is battle-tested and has earned ALPHA PAC's full endorsement.
